

INTERNATIONAL DEFENCE & AEROSPACE EXHIBITION

05 - 09 MAY 2026
ISTANBUL EXPO CENTER

Supported By

SAHA 2026

Global Hub of Defence and Aerospace Industry

SAHA 2026 International Defence and Aerospace Exhibition, organized by SAHA İstanbul-Türkiye's and Europe's largest industrial cluster—stands out as one of the most prestigious events in the sector.

SAHA 2026 will be held at the Istanbul Expo Center, bringing together over 1,500 companies, universities, and leading industry representatives in a 100,000 sqm² exhibition space.

With the participation of official delegations, defence and aerospace industry experts, as well as hosted buyer delegations from all around the world, SAHA 2026 will serve as a significant meeting point for all stakeholders in the sector.

The event will offer unique opportunities for collaboration through B2B, G2B, and G2G meetings, international panels, product launches, and special events.

The exhibition is set to offer an unforgettable experience with thrilling new activities. Alongside the "FPV Drone Zone," first introduced in 2024, participants will enjoy unique opportunities to engage in the "SAHA UGV Challenge" and "SAHA Rover Challenge" on custom-designed tracks, as well as explore innovations in the "Future Soldier Zone."

The Naval & Outdoor Exhibition Area which drew significant interest during the previous event, have been redesigned to be larger and more accessible, providing a robust platform to showcase innovations in the defence and aerospace industry.

SAHA 2026 is expected to continue being a significant step in shaping the technologies of the future and strengthening the global vision of the industry.

Book your stand at SAHA 2026 and become a part of the technologies shaping the future!

EXHIBITOR PROFILE

"The focus of SAHA 2026 is disruptive technologies those change the rules of the game as well as the conventional systems"

KEY HIGHLIGHTS OF SAHA 2026

NETWORKING OPPORTUNITIES

The event brings together international companies, official & hosted buyer delegations, high ranking officials, decision makers, procurement heads, industry leaders with the authority to make impactful decisions.

INTERNATIONAL PARTICIPATION

Countries worldwide bring together military, defence, and aerospace representatives, along with companies from the manufacturing sector, to showcase their advanced capabilities and technologies.

GLOBAL TRADE HUB

By connecting with delegations aligned with your business interest, participants can engage in targeted conversations that lead to actionable outcomes.

EXHIBITIONS & DISPLAYS

The exhibition features a diverse range of defence and aerospace systems, technologies, unmanned systems, military electronics, and cybersecurity solutions, with participation from leading companies in and related industries.

PANELS & KEYNOTE SPEAKERS

Experts and leaders from institutions, defence and aerospace manufacturing, and related fields share insights and discuss industry trends, challenges, and opportunities.

LOCATION

The event is held in Istanbul, Türkiye, where the continents meet. It attracts attendees from all over the world.

SAHA 2026 FEATURES

PANELS

Panels with the participation of industry leaders, experts, and decision-makers will address key topics regarding the future of the defence and aerospace industries.

SIGNING CEREMONIES

High-value signing ceremonies that strengthen international cooperation will continue to contribute to the defence and aerospace industries.

FOCUSED TALKS

Exclusive discussions with industry experts inspire sector professionals, creating opportunities for collaboration and the development of innovative projects.

SPACE TALKS

Scientific talks with leading figures in space technologies will highlight new opportunities within the global space ecosystem and showcase Türkiye's role.

TAILORED MEETINGS

Bilateral meetings continue to lead the development of strategic partnerships between domestic and international companies through tens of thousands of B2B, G2G, and G2B discussions, maximizing collaborations.

PRODUCT LAUNCHES

Product launches, highlighting the latest and the most advanced technologies in the industry, are at the forefront of innovation, guiding the way to the future.

? WHAT IS ON AT SAHA 2026

THEMATIC PAVILIONS

Thematic pavilions focusing on the sub-sectors of the defence and aerospace industries will offer companies operating in specified areas the opportunity to showcase their expertise and promote themselves.

NATIONAL PAVILIONS

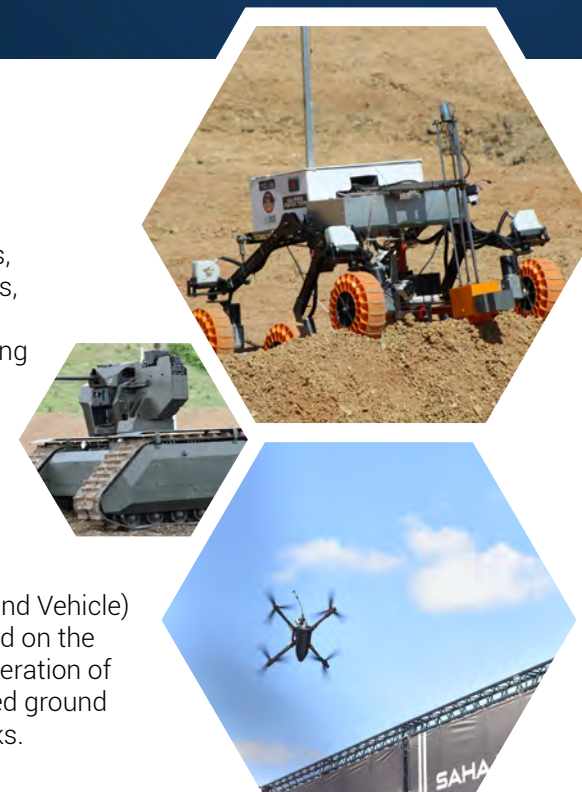

SAHA 2026 aims to expand global collaboration and trade opportunities in the defence and aerospace industries through dedicated national pavilions for international participants.

DISRUPTIVE TECHNOLOGIES

It is an event focused on innovations such as robotic systems, unmanned vehicles, artificial intelligence solutions, and wearable military technologies that are changing the dynamics of modern warfare.

SAHA UGV CHALLENGE

SAHA UGV (Unmanned Ground Vehicle) Challenge is an event focused on the design, development, and operation of innovative remotely controlled ground vehicles on challenging tracks.

SAHA ROVER CHALLENGE

SAHA Rover Challenge is focused on the design of durable and autonomous space vehicles capable of operating in challenging terrains.

FPV DRONE ZONE

It is an event that hosts the thrilling competitions and demonstrations of FPV drones, which are transforming the course of conflicts on the battlefield, offering participants the opportunity to explore their potential applications in both military and civilian fields.
